PROFESSIONAL SUMMARY

Ecosystem growth leader with 4+ years building developer ecosystems, strategic partnerships, and go-to-market engines across Web3 infrastructure and Layer 2 networks. Scaled an omnichain identity protocol to 300+ partner integrations across 27 blockchain networks, reaching 450K+ unique active wallets. Managed grants program strategy across Polygon, BNB Chain, and Aptos ecosystems while generating 15+ qualified enterprise prospects from cold start. Combines deep cross-chain ecosystem development experience with cross-functional leadership to drive developer adoption, community engagement, and measurable ecosystem metrics.

CORE COMPETENCIES

Ecosystem Growth Strategy

Strategic Partnerships

Grants Program Management

Developer Ecosystem

Cross-Chain Infrastructure

Web3 GTM Strategy

Cross-Functional Leadership

Community & Events

WORK EXPERIENCE

Storacha (Protocol Labs)

Apr 2025 – Mar 2026

Growth Lead · Remote

- Led ecosystem growth and developer adoption strategy for a decentralised hot storage platform, managing a cross-functional team of 5 across marketing, business development, community, and engineering with weekly KPI dashboards and operating cadences.
- Built developer ecosystem growth channel through Clawracha, a persistent multi-agent memory plugin for the OpenClaw/ClawHub ecosystem on Storacha's storage infrastructure, driving developer onboarding and community engagement.
- Deployed full ecosystem partnership development infrastructure across Apollo.io, Salesforge, HubSpot, Clay, and n8n automation workflows (6 automated sequences), generating 15+ qualified enterprise prospects within 4 months from cold start.
- Pioneered the digital preservation vertical, producing institutional case studies (Smithsonian, Starling Lab, MuckRock) and targeted outreach to NDSA and DPC member organisations, positioning Storacha as a credible storage layer for GLAM institutions.
- Defined three core ICPs (IPFS pinning migration, DePIN scale-up, and research institutions with digital preservation mandates) through competitive analysis and market segmentation.

xStar / OpenMeta Pte. Ltd. (Star Protocol)

Apr 2022 – Mar 2025

Head of Growth & GTM · Remote

- Led ecosystem growth strategy that scaled Star Protocol from a single-chain name service to a fully omnichain identity protocol across 27 blockchain networks, driving developer adoption and ecosystem expansion across Layer 1 and Layer 2 networks including Ethereum-aligned chains.
- Identified, negotiated, and closed ecosystem partnership integrations, securing co-marketing agreements, technical integrations, and white-label deployments with 300+ Web3 companies, growing the protocol to 450K+ unique active wallets and a community exceeding 1 million users.
- Managed grants program strategy across Polygon, BNB Chain, and Aptos ecosystems, coordinating funding programs and reporting deliverables to foundation stakeholders.
- Managed relationships with strategic investors including OKX, Youbi Capital, and Pluto Capital, aligning ecosystem growth with token strategy and community engagement goals.
- Designed and launched the TLD launchpad partner onboarding framework, enabling Web3 projects to issue their own branded top-level domains via Star Protocol's SDK, expanding the developer ecosystem.
- Led cross-functional collaboration between engineering, product, and marketing teams to align ecosystem metrics with the product roadmap and growth KPIs.

PROJECTS

Clawracha Developer Ecosystem

Persistent multi-agent memory plugin for the OpenClaw/ClawHub ecosystem built on Storacha's decentralised storage infrastructure. Designed as a developer growth channel to drive onboarding and community engagement within the developer ecosystem.

Storacha, IPFS, Multi-Agent Systems, Developer Relations

Melbourne University Cryptocurrency Club (MUCC) Community & Events

Co-founded Melbourne University's first blockchain student organisation. Assembled expert panel events, grew it into a recognised university society with regular event programming, external partnerships, and published original research on distributed consensus architectures.

Blockchain, Community Building, Events, Research

EDUCATION

Bachelor of Commerce (Finance) — [The University of Melbourne](#) 2017 – 2018

Corporate finance, modern portfolio theory, asset pricing, and economic research.

Diploma in General Studies — [The University of Melbourne](#) 2016

Agricultural economics, agroforestry, and organisational psychology.

Associate Degree in Civil Engineering — [Swinburne University of Technology](#) 2012 – 2014

Project management, engineering mathematics, and solar panel R&D.

SKILLS & TOOLS

Ecosystem & Growth: Ecosystem development, developer ecosystem strategy, grants program management, partnership development, community engagement, hackathons & developer meetups, Web3 conference strategy, KPI framework design

Strategy & GTM: Go-to-market strategy, ICP definition, competitive analysis, market segmentation, sales enablement, pricing & positioning, 90-day launch planning

Ecosystem & Partnerships: Strategic partnerships, partner onboarding, investor relations, co-marketing agreements, white-label deployment, developer relations, cross-functional leadership

Tools & Platforms: Apollo.io, Clay, HubSpot, Salesforce, n8n (automation), Google Workspace, Notion, Figma, Slack, Telegram, Discord

Web3 Domain Knowledge: Ethereum, Layer 2, Optimistic Rollups, IPFS, Filecoin, Protocol Labs ecosystem, decentralised storage, DePIN, omnichain infrastructure, LayerZero, DeFi, dApps, blockchain, token launch strategy, content-addressed storage

Leadership: Cross-functional team management, weekly operating cadences, OKR/KPI reporting, ecosystem metrics, remote-first team operations, stakeholder communication
