PROFESSIONAL SUMMARY

DePIN ecosystem growth and strategic partnerships leader with 4+ years driving Web3 GTM strategy across decentralised physical infrastructure, omnichain identity, and open-source storage protocols. Scaled a 300+ Web3 company ecosystem across 27 blockchain networks to 450K+ unique active wallets; built enterprise business development pipelines from cold start, generating 15+ qualified prospects in 4 months. Deep expertise in the Protocol Labs open-source ecosystem (IPFS, Filecoin) with proven ability to lead cross-functional teams, develop ecosystem partnerships, and drive community building across Layer-1 and cross-chain infrastructure.

CORE COMPETENCIES

DePIN Ecosystem Growth

Strategic Partnerships

Web3 GTM Strategy

Enterprise Business Development

Open-Source Protocols

Cross-Chain Infrastructure

Team Leadership

PROFESSIONAL EXPERIENCE

Storacha (Protocol Labs)

Apr 2025 – Mar 2026

Growth Lead · Remote

- Led **DePIN ecosystem growth** and **strategic partnership development** for a decentralised hot storage platform built by the open-source team that co-architected IPFS and Filecoin within the Protocol Labs ecosystem.
- Built the entire enterprise BD pipeline from zero, defining three core ICPs — IPFS pinning migration, **DePIN scale-up**, and research institutions — generating **15+ qualified enterprise prospects within 4 months** from cold start.
- Led a **cross-functional team of 5** across marketing, business development, community, and engineering, running weekly operating cadences, KPI dashboards, and reporting systems in a **remote-first** environment.
- Deployed full outbound partnership infrastructure across Apollo.io, Salesforce, HubSpot, Clay, and n8n automation workflows (6 automated sequences), building a scalable **startup engagement** engine.
- Pioneered the digital preservation vertical, producing institutional case studies (Smithsonian, Starling Lab, MuckRock) and targeted outreach to NDSA and DPC member organisations, positioning the platform as a credible **decentralised physical infrastructure** layer for GLAM institutions.

xStar / OpenMeta Pte. Ltd. (Star Protocol)

Apr 2022 – Mar 2025

Head of Growth & GTM · Remote

- Drove **ecosystem development** and **strategic partnerships** that grew Star Protocol from a single-chain name service to a fully **omnichain** identity protocol across **27 blockchain networks**, reaching **450K+ unique active wallets** and a community exceeding 1M users.
- Identified, negotiated, and closed integration partnerships with **Layer-1** and Layer-2 ecosystems, securing co-marketing agreements, technical integrations, and white-label deployments with **300+ Web3 companies**.
- Managed relationships with strategic investors including OKX, Youbi Capital, and Pluto Capital. Coordinated grants program participation across Polygon, BNB Chain, and Aptos ecosystems.
- Developed **GTM strategy** for Star Protocol's evolution into a Proof of Humanity as a Service platform, targeting sybil resistance and identity verification — directly relevant to **IoT** device identity in the **machine economy**.
- Designed and launched the TLD launchpad **partner management** onboarding framework, enabling Web3 projects to issue branded top-level domains via the protocol's SDK, driving **startup engagement** and **ecosystem development**.
- Managed cross-functional collaboration between engineering, product, and marketing teams to align growth efforts with product roadmap and token strategy.

PROJECTS

Clawracha GTM Strategy

DePIN / Open-Source

Designed GTM strategy for a persistent multi-agent memory plugin for the OpenClaw/ClawHub ecosystem on Storacha's decentralised storage infrastructure, serving as a developer ecosystem growth channel for the Protocol Labs open-source stack.

Storacha · IPFS · Filecoin · Protocol Labs · Developer Relations

Melbourne University Cryptocurrency Club (MUCC)

Community Building

Co-founded and presided over Melbourne University's first blockchain student organisation (2017-2018). Hosted expert panel events, built external partnerships with industry professionals, and published original research on distributed consensus architectures.

Blockchain · Community Building · Public Speaking · Ecosystem Development

EDUCATION

Bachelor of Commerce (Finance) — [The University of Melbourne](#)

2017 – 2018

Corporate finance, modern portfolio theory, asset pricing, and economic research.

Diploma in General Studies — [The University of Melbourne](#)

2016

Agricultural economics, agroforestry, and organisational psychology.

Associate Degree in Civil Engineering — [Swinburne University of Technology](#)

2012 – 2014

Project management, engineering mathematics, and solar panel R&D.

SKILLS & TOOLS

Ecosystem & Partnerships: Ecosystem development, strategic partnerships, partner onboarding, grants program management, investor relations, co-marketing agreements, white-label deployment, developer relations, community building, startup engagement

Strategy & GTM: Go-to-market strategy, ICP definition, competitive analysis, market segmentation, sales enablement, pricing & positioning, KPI framework design, 90-day launch planning

Enterprise BD: Enterprise B2B sales, outbound prospecting, pipeline management, LOI negotiation, account-based marketing, conference strategy, public speaking

Web3 Domain Knowledge: DePIN, IPFS, Filecoin, Protocol Labs, decentralised storage, omnichain infrastructure, LayerZero, Layer-1 blockchain, IoT, machine economy, open-source protocols, token launch strategy, UCAN permissioning

Leadership: Cross-functional team management, team leadership, remote-first operations, OKR/KPI reporting, weekly operating cadences, stakeholder communication

Tools: Apollo.io, Clay, HubSpot, Salesforce, n8n (automation), Google Workspace, Notion, Figma, Slack, Telegram, Discord
